

5 key facts of EXCON's receivables management

Why EXCON?

EXCON has been providing receivables management services for companies for **more than 30 years**. Constantly growing expertise, modern technologies, respectful customer contact and compliance with legal requirements are our **quality promise**.

This not only **improves your efficiency**, but also **reduces bad debt losses and optimizes payment flows**.

Repossession of mobile assets such as vehicles, construction machinery and agricultural machinery.

Securing immobile assets such as production machinery, industrial plants and special equipment.

Vehicle tracking to keep an eye on mobile assets and evaluate them using a data pool tailored to your requirements.

Motor vehicle damage appraisal as part of the securing process for minor damage to save time in remarketing.

Non-performing mortgage loans. Organize instalment payments, negotiate terms, maximize repayments and liquidation value.

Digital processes

Our employees document all process steps fully digitally in the EXCON app. This allows our clients to call up the status of their orders in real time at any time.

Benefits

By transferring tasks such as payment monitoring, debt collection, security and risk analysis to EXCON, you can focus on your core competencies.
